THE MAP. YOUR EQUIPMENT WILL BE THERE WAITING
FOR YOU.**

Field Day

3rd Grade-5th Grade 12:30-1:15

Kindergarten - 2nd Grade 1:30-2:15

1. Unity High School students and athletes will be in charge of running the stations. Some of the stations are self-explanatory, but some of them will require some teaching.
2. I am meeting with the high school volunteers on Thursday morning. I will be explaining to them their roles. If you see them needing assistance at their station please give it.
3. Homeroom teachers are to go around with their students and enjoy their success.
4. Any other staff that works with a particular grade level is expected to be visible at Field Day during that grade levels time.
5. We will try to rotate the students every 15 minutes. I am not insisting that students rotate, but I do want to make sure that everyone can have an opportunity to participate.
6. The equipment will be set up and ready.
7. Teachers please set aside some time in class to share with your students all the stations that are available on Field Day. Part of PBIS and our school systems is to *have a plan*. Remind your students that we are going to rotate every 15 minutes.
