## Free Access to World Book Online

Our school district has a subscription to *World Book*; everyone in the district may access this from any computer with Internet connection. Go to your school media center website. Click on the World Book icon.

**User name:** unit7

**Password:** rockets

Some features of World Book Kids include:

- Content from the award-winning World Book *Student Discovery Encyclopedia*, carefully chosen and written for younger readers.
  - A bright, graphical design.
  - Thousands of colorful illustrations, diagrams, and maps.
- Fun and inventive activities to engage children's different learning styles

Also, at the Reference Center link you will find:

- The *World Book Atlas*, which contains approximately 750 maps.
- The *World Book Dictionary*, which contains approximately 250,000 entries.

All of the articles from the *World Book Encyclopedia*, plus thousands more. In addition, there are more than tens of thousands of pictures, maps, videos & animations, and sounds.

## How Do I get my child to read More?

The very best way to get kids to do anything is to teach them through example. Occasionally, turn off the TV and sit down with a good book.

As your child grows, the two of you can read together. Take turns reading a story to one another, or read a page and then have your child read the next page and so on. Tell the story with enthusiasm, and don't be afraid to really get into it; make funny faces and voices. If you enjoy reading time, so will your kids.

Give your child a book as a gift. Even before he or she can read, you can instill a love for books.

Show interest in what your student is currently reading. And ask a few simple questions about each book. Avoid pushing too hard or it might feel like you are demanding a book report, and that will take the fun out of it.
